MINISTRY PHILOSOPHY

I desire to introduce people to Christ's transformative love that radically changed the course of my life forever and to guide them in deepening their walk. Hearing God's Word, I want people to be challenged intellectually and motivated toward personal change. I believe when our lives are brought under the teaching of God's Word, we can effectively do the work He has set before us, both individually and corporately as a church.

PERSONAL SUMMARY

I am a unique blend of both ministry and business. For over 25 years, I have been leading and working alongside people in various roles as an entrepreneur, pastor-teacher, business owner, and consultant. I like to tell people I am young enough to navigate the intricacies of social media but mature enough to run, grow, and manage all aspects of the church. I believe that at the age of 49, my youthful energy combined with years of experience positions me as an ideal candidate to reach all age groups and shepherd your church personally and professionally with both humility and care.
